

## How We Are Different

- 1** It's Easy! Everyone can use it, and works on most Android and Apple devices.
- 2** It's Fast! Entire rooms are documented in less than 3 minutes!
- 3** It's Accurate! Measurements are correct and damage can be ascertained and measured.
- 4** It's Complete! Sketches are detailed with everything needed for estimating.
- 5** It's Consistent! Data is consistent and standardized.
- 6** It's Fully Integrated! Seamless integrations with Xactimate, CoreLogic and Guidewire, as well as our API which easily integrates with eFNOL or any other claim system

EVERY interior claim can benefit from Plnar – from the smallest water leak to a large loss fire. The Plnar Process provides a consistent and easier methodology and produces richer output.

Plnar is an InsurTech software provider transforming the insurance claims process by enabling contactless inspections for interior property claims for significantly better customer experiences, shorter cycle times and lower costs. Since 2012, Plnar's patented technology platform has given desk adjusters the power to generate fully realized 2D and 3D models of interior spaces from digital photos and streamline the claims process for quicker, more efficient settlement.

# Snapshot

## Look Inside. Instantly

Perfect for Low-Severity Claims such as minor damage, broken windows, etc. that may only require images.

- ✓ Photos automatically organized by claim, location and room.
- ✓ Shows relative location in the room compared to other pictures.
- ✓ Fraud prevention –effectively “freezes the loss” and helps avoid moral dilemma.
- ✓ Ability to request full 3D modeling and 2D plans when necessary - without the need for picture retake.

# Snap

## Be There. Virtually

Perfect for Interior Property Claims that will benefit from 2D sketches, 3D Models, measurement reports, and SmartPix.

- ✓ Complete – captures everything in a room from the smallest architectural elements like a bump out, to appliances to contents.
- ✓ 2D and 3D Plans, SmartPix measurable photos, and a suite of reports makes estimating a Snap!
- ✓ Insta-pic image report available immediately after submission.
- ✓ Part of a Delightful claims experience.

# FieldConnect

## Remote Engagement. Simplified

Third party providers, already at the loss site, can easily use Snap to document the interior loss.

- ✓ First Responders, IA's, Water Mitigation Specialists, and other field personnel can now initiate a Plnar project in the field – without the need for Plnar Portal access.
- ✓ Third party providers already at the loss site documenting external damage can send themselves a Plnar Project and document the interior space.
- ✓ Adjuster has full access to Plnar Portal and all assets - including 3D models, 2D sketches, and measurement reports, as well as measurable SmartPix.
